STUDENT SATISFACTION SURVEY: 2019-20

Students Satisfaction Survey was conducted for the students of the academic year 2019-20. Previously students satisfaction survey was conducted by NAAC prior to the NAAC visit to the college during the year. Later on students satisfaction survey was conducted among some randomly selected students of the college. 110 randomly selected students participated in the survey and the results and details of the student satisfaction survey are as follows:

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc.

99 responses

20. The overall quality of teaching-learning process in your institute is very good.

101 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution. 56 responses

Very good

Ask to student individual for improve learning experience

I fully satisfied with this college

1) Use ICT tools and digital game based learning 2) Try to reach students and ask for their doubts 3) Make teaching a two-way interaction

For student classes are compulsory for each student if one student missing the class he/she will have to give an application to the Head of the department. And teachers are excellent to teach they are so friendly to students. And the college has to take strict rules and regulation for the student from all sides. Thank you ♥

English should be used as the main language of teaching because not all students understand Assamese.

Should use LCD projector.

Teaching is very good and we can communicate very well with teachers always, and institute is also very good

Learning

1. All the teachers should teach perfectly with some appropriate examples. 2. they should always stand with best manners to the all students . 3. requesting to all the teachers that they should use projector/ or screen. However our college teachers are best in my opinion. Thank you

All teachers are Very good in their own way.. The way they teach us is Very good!!

All good

The institution where I study is good, the teachers try their best to complete the syllabus and understands the students mentality. But there are some of the areas where they can improve a lot. Especially for digital classroom enhancement. 1. Notifying the students of practicals. The geography department lacks that. Most of the time it is the student who has to go to the department to be informed regarding practical classes or exams. There's already WhatsApp groups but the teachers give no notifications at all. 2. Wi-Fi connectivity of the institutions is not available for students at all. During digital class hours, the Wi-Fi connection should be open for the students to search and learn about the given subject topics. Other than the above two suggestions I've got no other complaints. Our institution is trying their best to improve the learning-teaching experience and I'm glad for it.

(1) Use better graphics and visual media to engage students well. Better graphics and colors arouse the interest and desire to learn among students. (2) Try to reach every student and ask for their doubts. .. (3) Make teaching a two way interaction.

1. Teacher can teach every student in an appropriate behavior.

Good teaching

1. Teachers should optimize and also inform the students about where their weakness or strong points are and where should they improve to write answers in a better way. 2. We are definitely provided preferable resources regarding our courses but it would be a great help if teachers provide little more information or resources, included in the course. 3. Proper Guidance of teachers during the form fillup is much mandatory. As the students of particular departments we might be unaware of certain things

1. I think our teachers should also be concern about our weaknesses and Mental Health. 2. Communication with every student should be necessary. 3. When a student is unable to perform well, to know what a student is going through , teachers should be helpful to them.

Thank you

1. We need regular classes 2.we want our syllabus to complete in time 3. Their is ignorance, teachers are ignoring students, students are ignoring teachers ...it's the only truth .

1.Teachers need to give more attention to their students. 2.Teachers should have improve their communication skill. 3.Institution or the college have to give more opportunity to the student to grow and learn.

1. Learning process is very good 2 . Teaching prepration good

1.All Teachers are regularly present in college at the perfect time. 2. Please Take their own topics and complete the syllabus at the righth time. 3. And at the last a good communication build with students .

1.Try to reach every student and ask for their doubts. 2.Make teaching a two way interaction. 3.Use better graphics and visual media to engage students well .

The learning process in our institution is too goo each and every teacher encourage us and support us in every problems in our doubts etc just we need some LCD PROJECTOR class for our betterment of our future that's it otherwise our institution is the best place for a perfect student from learning or for the best classes.

Student Satisfaction Survey Form 2019-20:

Student Satisfaction Survey 2019-20

STUDENT SATISFACTION SURVEY for the students of Tezpur College

Instructions to fill the questionnaire:

- All questions should be compulsorily attempted.
- Each question has five responses, choose the most appropriate one.
- Give your suggestions or mention the weaknesses of the college in Question No. 21
