

Feedback Analysis and Recommendations

Academic Year-2014-15

Report on the Feedback from Students

The committee analyses the Feedback on Teachers performance collected from the different departments and made the following observations:

1. The students were found to be satisfied with the communicative skills of most of the teachers.
2. The presentational skills and interest capabilities of most of the teachers were found satisfactory by the students.
3. The analysis revealed that the students were quite satisfied with the commitment and punctuality of the teachers. The teachers were found to complete the syllabus on time.
4. The students have found the teachers approachable both inside and outside the class.

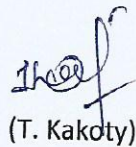

Recommendations/ Suggestions

1. Teaching could be made more interesting by making use of technological aids.
2. The administration may provide voice amplifiers in large classrooms to make teaching in such classrooms effective.
3. To have frequent interaction with students.
